

Clinic Safety Measures

Due to the recent pandemic, **please call to reschedule if you have had exposure to COVID-19 or have symptoms.**

Fort HealthCare has adopted the following proactive measures to keep our patients and team members safe:

- **Fort HealthCare clinics will separate healthy visits from sick visits.**
- **Bring a face covering, which must be worn at all times while in the clinic.**
- **Temperatures will be checked.**
- **One healthy caregiver per adult patient only if medically necessary.**
- **Two healthy adult caregivers per pediatric patient (no siblings).**

If you have concerns about these guidelines, please call the clinic you have a scheduled visit with to discuss further.

Concerned about having COVID-19 symptoms? Please feel free to call our COVID-19 HOTLINE at (920) 648-7696.
